

Innovations Abound: Exploring the new frontier of payments technologies

2023 Sponsorship and Exhibitor Packages

Payments Summit Overview

The Payments Summit is the premier industry event covering all things payments, including FinTech, mobile wallets, NFC, contactless, EMV, chip technology, open transit systems, mobile identification, authentication, and more. Attend the 15th annual Payments Summit and get the latest on all of these exciting technologies and the many business opportunities they can unlock.

2023 will mark the fifth year combining the Secure Technology Alliance Payments Summit with the U.S. Payments Forum All-Member Meeting, resulting in the most comprehensive gathering of card and payments professionals ever!

Attend the 15th annual Payments Summit and get the insights you need to lead your organization's payment initiatives and unlock new business opportunities. One event registration will give you access to all of the 2023 Payments Summit conference sessions, networking receptions, and combined exhibition hall. Secure Technology Alliance members will have additional access to member only sessions and working committee breakout meetings that are regularly held at each All-Members Meeting.

Attendees Overview

The Payments Summit attendees represent every section of the payments industry. Our membership and non-member attendees come from global payments networks, processors, issuing banks, merchant banks, suppliers, merchants, etc. In each of these categories, we have organizations of all sizes - such as very large merchants to small, single location stores. The same is true for financial institutions - some are global banks and others are regional, or credit unions focused on a vertical market. Attendees also represent companies that are technology or solutions providers that work with companies in the broad payments ecosystem. Titles range from C-suite executives, to operations management, to marketing, to product management and engineering. Alliance working committees have a cross-section of subject matter experts representing every aspect of payments challenges and best-practices.

The most recent Payments Summit (after Covid restrictions eased) was in 2022 with attendance over 400 individuals. Pre-Covid in-person Payments Summits had over 500 attendees. Our goal for 2023 is to once again host over 500 attendees through a hybrid meeting with both in-person and virtual sessions.
